

About the club . . .

The Warrnambool Offshore and Light Game Fishing Club is a family oriented club with an emphasis on game fishing.

The club has regular monthly fishing trips for members (weather permitting) - mainly offshore, but also estuary fishing on the Hopkins,

Curdies and Fitzroy rivers, surf fishing and freshwater trips.

Variety of fishing . . .

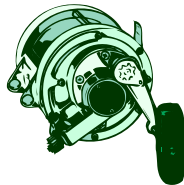

Light game fishing is not all offshore. We provide an opportunity to pursue various types of light tackle sport fishing, including:

- offshore game fishing
- surf fishing
- estuary - bait and lure fishing
- freshwater fishing (lakes and rivers)

Game fishing . . .

The highlight of the fishing year is the offshore tuna and gamefishing during the autumn months, when schools of large blue fin tuna and other game fish visit nearby shores.

Members regularly travel to the Port MacDonnell Annual Tuna Competition, and fish offshore from Portland and Port Fairy for blue fin tuna, yellow tail king fish, mahi mahi (dolphinfish), shark and other trophy size game fish.

If you don't have a boat . . .

You don't even need a boat to come fishing with the Offshore Club. Club members with a boat are often looking for a deckie (deckhand) or fishing buddy to share a fishing trip or two.

Family and social activities . . .

Partners and children are welcome and are encouraged to take part in club activities.

The club also conducts other activities including the annual community fishing competition, trips to the Melbourne Fishing and Boating Show, weekend family camping trips, Xmas party BBQ and the annual trophy presentation night.

Learn more about fishing . . .

Regular fishing information sessions are provided during the year by experienced club members and guest speakers.

Game fishing records . . .

Warrnambool Offshore and Light Game Fishing Club is affiliated with the Game Fishing Association of Victoria (GFAV). You need to be a member of a club affiliated to the GFAV to claim any Australian or Victorian game fishing record.

Nomination Form
